Department Summary

Department: Pump-Out Boat Division

Budget Year: 2015
Division: Board of Trustees
Tax District: Full Town

Cost Center #: 8189
Manager:

NOTES:

Departmental Mission & Responsibilities:

The marine Pump-Out Program was initiated by the Southampton Board of Trustees in 1995. This program was intended to prevent the illegal discharge of waste into local waters. Marine waste is considered hazardous material and discharge into our waters can have serious effects, including health issues and closures to both swimming and shell fishing areas. The program has pumped over 1 million gallons of sewage from the boaters using our waterways. Both the Peconic Bay Estuary and the South Shore Estuary are now designated as “No Discharge Zones.” The Trustees' Pump Out program was instrumental in this designation.

Workload:

The Board of Trustees, with the assistance from the Town Bay Constables, operates seven pump-out vessels, each with the capacity to retrieve up to 250 gallons of marine waste. The pump-out vessel is on call by VHF radio and is available to all boaters in Southampton Town waters and the Peconic Estuary, free of charge.

The pump-out program is expected to remove in excess of 112,000 gallons of marine waste from local waters, per year. This program is extremely effective and beneficial to Southampton’s environmental, social and economic health. Our aim is to increase the pump-out boat activity by 10%.

Goals & Objectives:

This program is extremely effective and beneficial to Southampton's environmental, social and economic health. The Trustees have established a goal to increase the pump-out boat activity by 10%.

Legal Authority:

The Town of Southampton Board of Trustees has been charged with the authority to oversee and administer Southampton’s Marine Pump-Out Program. This program is the first in New York State and the largest program with respect to both area of coverage and volume of marine waste that was recovered.
